# BANKERS WAX FAT ON OUR MISERY

NATIONAL FRONT
53, Greencroft Towers,
Felling, Gateshead 10.

**THE CONSERVATIVE PARTY, while masquerading as the champion of free enterprise, is in fact the creature of a greedy and rapacious international monopoly capitalist system. Instead of promoting the cause of the small and medium size British firms, Margaret Thatcher is actively helping multi-national giants to squeeze them out of existence.**

Her policies of concentrating economic power in the hands of a few cosmopolitan monopolists is similar to the Communist system of concentrating economic power in the hands of a few bureaucrats.

While bankruptcies are reaching record levels, the large industrial and financial institutions are disclosing record profits, often as a result of the massive increase in prices that are being forced onto the British public.

Without doubt the most staggering increase in profits has been recorded by the large clearing banks.

Barclays' profits were up 42% to £529 million, while the profits from their UK business were up a staggering 73%. Lloyds Bank profits were up 49% to £529 million, and National Westminster Bank achieved an increase of 44% to £441 million. In all the main clearing banks made a total profit of £1563 million.

**The banks have admitted that this huge increase is a result of the astronomic rise in interest rates imposed by Margaret Thatcher's Tory Government. It is these high interest rates which are directly forcing many firms into bankruptcy and causing many more to lay off part of their workforce.**

## FORCED TO RAISE PRICES

Those firms which are able to survive are being forced to raise prices to pay for the interest charges on the loans with which they finance their business.

The virtual doubling of interest rates over the last year has directly hit every family, not only by these increased prices for goods, but also by the consequent forcing up of rents and mortgages to almost impossible levels.

Thus the banks and other financial institutions are reaping these huge profits as a result of the interest rates which are causing longer unemployment queues and rapidly rising prices.

**The obvious way in which these excess profits could be used to alleviate the resulting hardship is by taxing them, yet the Tories have flatly rejected this idea.**

Many of the monopoly industrial firms are also doing very nicely out of other people's misfortune.

## SMALL FIRMS SQUEEZED OUT OF BUSINESS

With many small firms in trouble because of the high interest rates and the general economic recession, the large multinational companies are acting to squeeze them out of business altogether and thus to increase their stranglehold over the British economy.

Such actions push unemployment up still further as the products previously made by a British firm are replaced by products brought into this country from Japan, Germany, America and elsewhere.

One total monopoly which is currently reaping the rewards of such a stranglehold is the oil industry. This worldwide cartel is controlled by the so-called "Seven Sisters": Exxon, Royal Dutch/Shell, British Petroleum, Mobil, Texaco, Gulf Oil and Standard Oil.

Because of the rising price of oil these companies have managed to achieve billion pound profits. Shell, last year, increased its profits threefold to over £3000 million.

**These profits have been a result of the continual rises in the pump prices of their products, often in excess of any increase in the cost of oil, and in some cases even when there has been no increase at all in the cost of crude oil.**

These price rises affect the costs of every other manufactured item and virtually all the normal services which are provided in this country.

## "A GOOD THING"

Even the oil companies have become embarrassed by these enormous profits and have launched an advertising campaign to persuade people that their stranglehold is a good thing, and that these monstrous profits are needed for future expansion.

In fact a substantial part of their profits is now being used to buy into areas of industry unrelated to oil in order to further extend their monopoly.

**The reason why the Tory Government allows these things to happen is because it is managed by people who believe that international Big Business should be allowed to do whatever it likes regardless of the effect on the British nation and people in terms of bankruptcies, closures and mass unemployment.**

- 1½ Million Unemployed
- Inflation at 22%
- Record Rate of Small Business Bankruptcies
- Welfare Services Cut
- Rates— Increases of up to 50%

- Bankers' Profits up by 44%
- Tax Cuts for Super-Rich
- Foreign Ownership of British Industry Up
- Big Business Cash Pours into Tory Party Coffers

# OUR WAY TO FIGHT BACK

BRITAIN is being looted and wrecked by international bankers and monopolists because the Conservative, Labour and Liberal leaders do not think of Britain as a nation state whose independence must be preserved at all costs, but as a mere economic entity which must be integrated into a "World Economy". Only a programme of economic nationalism will save Britain from the nation-destroying consequences of economic internationalism:

- Imports cause unemployment. Britain must not import any goods which British workers are capable of making in British factories.
- Restrictions must be placed on the export of investment capital. Profits made in Britain must be reinvested in British industry, not with foreign competitors.
- Special tax incentives must be given to industrial forms so as to encourage them to invest in new plant, equipment, research and development.
- Decisions affecting British industry must be taken by Britons in Britain – not by foreign monopolists. British firms must be British controlled.
- Britain must get out of the Common Market and must seek to reconstruct mutually beneficial trading relationships with our kinfolk in former White Dominions.
- Industries which are vital to the survival of an independent British economy and/or vital to our national defence but which do not produce adequate profits for investors must not be allowed to shut down. Such firms must be nationalised.
- The power of the banks to create new credit/money as an interest-bearing debt on the economy must be taken from them. New money must be created by the Government and spent into circulation debt-free.
- A crash programme must be introduced to put vast tracts of land currently neglected to productive agricultural use. A 200 mile fishing limit for the exclusive use of British fishermen must be imposed around our shores. Britain must cut back its food imports.
- Donations from corporations or trade unions to political parties must be forbidden. Political parties which seek to govern our land must only be beholden to the electorate and to their members.

## MUGGERS REJOICE! PATRIOTS BEWARE!

"THE NEED to protect Community Relations" is not the only reason advanced to justify the repeal of the 'Sus' law. It is also said that 'Sus' contravenes a basic tenet of English Law: the need for **intent** – a guilty mind – to be established before a crime can be said to have been committed.

Under 'Sus', a person can be convicted of being "a Suspicious Person" simply on Police evidence that he behaved in such a manner as to convince a Policeman that he intended to commit a crime. It is argued that a Policeman's opinion of what another person had in mind is not sufficient evidence to establish criminal intent.

The people who advance this view on "intent" in criminal law are not consistent, however. They endorsed an amendment to the Race Relations Act which relieved the Crown of the obligation to prove intent in "incitement to racial hatred" prosecutions. Under the Race Law a defendant faces jail even if he can prove that he **did not** intend to break the law – and even if the Crown admits that no "racial hatred" had actually been incited. (The present writer has personal experience of just such circumstances.)

Corrupt Parliamentarians are sacrificing the right of old ladies to go shopping in safety, and the right of Free Speech, to the false idol of multi-racialism.

Muggers rejoice! Patriots beware!

*NF News* seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful – only "racial hatred".

## India holds a Peach of a local election

TO SAY that the savage election riot which took place in Southall last year and which led to the death of Blair Peach was not in the established tradition of British politics is surely an understatement.

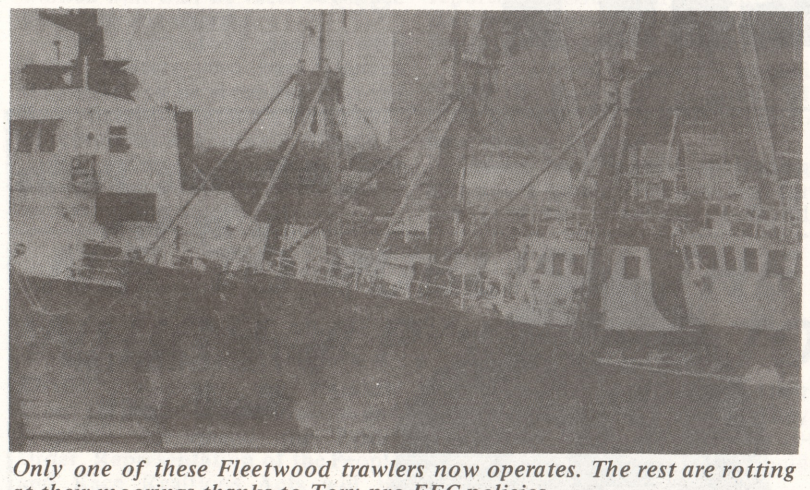
Murderous rioting at election time is, however, very much a part of the political scene in India. This tradition was kept up with a vengeance last month when numerous provinces in India staged local elections.

Rioting was almost continuous in a number of places. The principal activity of rival "campaign workers" seems to have been raids on polling stations in areas where their opponents were expected to do well, in order to steal the ballot boxes.

Large forces of Police had to be deployed with bamboo canes in order to frustrate this novel approach to democracy. Often bamboo canes were not enough to disperse the mobs, so the Police used firearms.

**The campaign scored a total of 50 deaths. There will be no inquests and no public inquiry.**

## TORIES' E.E.C. DEAL: FISHERMEN BETRAYED



*Only one of these Fleetwood trawlers now operates. The rest are rotting at their moorings thanks to Tory pro-EEC policies*

MARGARET THATCHER's supporters in the mass media have been trumpetting claims that the Conservative Government has achieved a "major victory" in bringing down the total of Britain's cash contributions to the Common Market.

As ever, the public has been deceived.

To begin with, the reduction in contributions is only for three years, after which payments will zoom up again. In addition to this, the deal involves an immediate increase in the cost of food.

While fishermen throughout the country were staging their national Day of Protest against cut-price imports and illegal fishing in our waters by foreign vessels, Agriculture Minister Peter Walker was "not available" to see them.

### SELL-OUT

He was at the Common Market's HQ in Brussels sacrificing our fishing industry's vital interests.

**He also betrayed British and New Zealand farmers in the "lamb war" with France as an inducement to the French to let Mrs. Thatcher have her short-term cash contributions "victory".**

During their Day of Protest Grimsby fishermen came to London and dumped heaps of cod and whiting on the steps of the Ministry of Agriculture. In Newcastle, fishermen from North Shields faced a stampede from 3,000 housewives when they gave away fish which would otherwise have been sold as fish meal.

Mr. Nigel Atkins, chief executive of the National Federation of Fishermen's Organisations, said at the London protest:

"The Government seems content to watch and do nothing."

In criticism of the measly £3 million which the Government has allocated to the industry he declared that "£50 million is the sort of injection required."

**Yet valid though the criticisms of cheap imported fish, illegal fishing and Government indifference most certainly are, it is Britain's surrender of her own waters that we should be mainly concerned about. It is that surrender which lies at the root of the malaise and is causing the death of our fishing industry.**

Another protester from Hull, Mr. Trevor Smith, former skipper of the trawler *Arctic Challenge*, was right on course when he said "Joining the Common Market is what has crippled the fishing industry."

It is a dreadful irony that some Grimsbyfolk are welcoming the landing of fish in our own ports by EEC fleets while our own ships are rotting in Grimsby and ports throughout Britain.

The supremely worthwhile demand of the fishing industry – the only one that will save it – is the return of British waters to British control.

This means the right to exclude all EEC and foreign vessels from British waters, which in turn means a head-on collision with the EEC and the ultimate withdrawal from the Common Market.

**Today "our" 200 miles are, by EEC law, "a common resource" open to all EEC fishermen. Although Britain contributes some 60% of the sea area and about 80% of the fish in EEC waters, the bulk of the catch is allocated by the "community" to others.**

As a result of the disastrously futile "cod war" no British vessels are today fishing off Iceland. Yet if Britain were once again in control of her own waters, she could reach reciprocal agreement with both Iceland and Norway (both these nations desire access to our waters for industrial fish and mackerel) and thus secure the return of some of our ships to these waters.

### LABOUR'S "CONCERN"

The Tories are perfectly happy to kill off our fishing industry for short-term "advantages". What of Labour?

Certain Labour MPs in fishing constituencies are going through the motions of showing "concern" – as well they might. Yet Labour as a whole has no policy on the matter, is pledged to EEC membership – and in any case the **nationalist** solution (which is the only one) is anathema to them.

**As with cotton, wool, steel, the motor industry only the National Front policy of economic nationalism can save our fishing industry.**

The Tory-Labour consensus has schemed to mongrelise our people by coloured immigration. Now they plan to wreck our vital industries.

***It is a matter of debate whether it is more important to stand up for our racial heritage or our survival. In fact, of course, both are vital if Britain is to live, and the National Front must lead in the fight for both.***

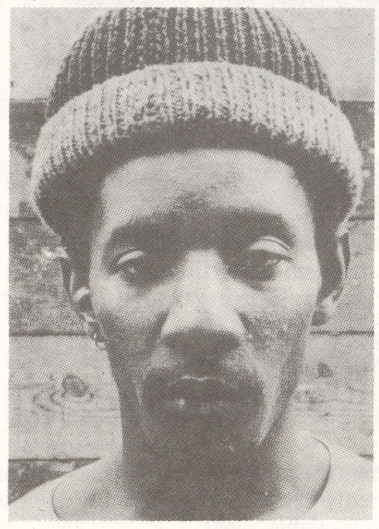
## 'Sus' law–Tories on the run

TORY Home Secretary Willie Whitelaw has reinforced the Conservative Government's jellyfish-opportunist approach to Britain's race relations problems by announcing that the so-called 'Sus' law is to be scrapped.

Needless to say the Labour and Liberal parties welcomed the announcement – their only regret being that they are not in office and able to employ this gimmick to woo the Black vote for themselves.

The 'Sus' law is a part of the 1824 Vagrancy Act. It enables the Police to arrest persons who by their conduct show that they intend to commit a crime.

This law is particularly applied in inner city areas in respect of street crimes such as car thefts, purse-snatching and mugging.



*Tories hope to win this man's vote by scrapping the 'Sus' law*

### PERSECUTION?

**Leaders of the Black community and their friends in the media and the race relations industry have long howled that the Police apply the law in order to "persecute" Black people.**

It is said that 40 per cent of 'Sus' arrests involve Blacks – yet Blacks do not comprise anything like 40 per cent of the whole population. But this does not prove that the Police apply the law in a "racialist" way.

It could equally indicate that a higher proportion of the Black population is inclined to commit certain types of street offences than the White population.

Indeed, Police statistics recording street offences such as muggings which have actually been perpetrated in multi-racial inner city areas show that 80 per cent of the muggers were Black and 85 per cent of their victims were White.

**The recommendation that the 'Sus' law be scrapped came to Mr. Whitelaw from the House of Commons Home Affairs Committee, whose Chairman is Tory MP Sir Graham Page.**

The Committee said that they did not believe that the Police were applying the law in a "racialist way", but they found that the Black community believed that they were being victimised.

Thus the Committee held that the law was bad for Black community/Police relations, and thus bad for Community Relations generally. The Police in London do not agree and say that the law must be retained in the public interest.

The politicians have ignored Police advice for two reasons. Firstly the Black vote is decisive in an increasing number of inner city constituencies.

### PANDERING

Secondly, they were terrified by the race riot in Bristol last April when the Police, for community relations rather than operational reasons, abandoned an area of the city to a rioting Black mob for five hours.

**The Westminster politicians hope that by pandering to Black community demands such as the call to scrap the 'Sus' law they will put off the day when the multi-racial madhouse that they have created in Britain explodes in a race war.**

Squalid gimmicks of this kind are doomed to failure because multi-racial societies just do not work.

**If Britain cannot learn this lesson from other nations' experiences, then she will have to learn the hard way.**

## MIAMI: WHITES FIGHT BACK!

EVER since the 1960's big cities in the United States have experienced ever more horrific orgies of race-rioting, looting, raping and murder. The race riot in Miami on 18th May cannot be considered as "just another" of these horrible occasions endemic in the world's premier multi-racial society for two reasons:

Firstly, because of the unprecedented, almost bestial, depravity of the tortures and murders inflicted on the rioters' victims.

Secondly, because elements of the White population on this occasion armed themselves and fought back.

According to Press reports, groups of young White people armed themselves with shot-guns, sporting rifles and hand guns and drove around the riot-stricken area blasting away at every Black rioter and looter that they could spot.

These young people were inevitably described by the Press as "Klansmen" and "bigoted White racialists". Some of them may indeed have been Klansmen – but in such a situation political tags were irrelevant. They were White people fighting for survival.

### TORTURES AND MURDERS

**Who can blame the White youngsters for taking to arms in the face of the appalling tortures and murders being meted out to innocent White people?**

The *Evening News* (19.5.80) reported what can only be described as genocidal attacks against White people:

*"Hundreds of people have been injured in shootings, stabbings and beatings. Atrocities continued today when an elderly White woman returning from a night job was dragged from her car by a gang of Blacks and set alight with petrol . . .*

*" . . . A doctor at one hospital said that some people were so badly maimed they would be crippled for life.*

*"On Saturday night rioting Blacks dragged two White men from their cars, kicked them to death and drove repeatedly over their bodies in a car.*

***"Other Blacks lopped off the ears and tongues of two White men, shot them, stuffed roses in their mouths and left them in the street.***

*"Last night Police reported several instances of Whites in pick-up trucks and four-wheel drive vehicles roaming Black neighbourhoods and opening fire on negroes . . .*

*" . . . Blacks and Whites faced each other with guns, knives, clubs and other weapons fashioned from home implements."*

Eventually more than 4,000 heavily-armed National Guardsmen – including the man shown in our picture – were called in to restore law and order.

More than 20 people died during or as a result of the riot. More than 500 people were arrested. Damage is estimated at more than £50 million.

**It is said that what happens in America today is repeated in Britain tomorrow. Let us hope that the authorities in Britain wake up to the dangers of multi-racialism in time and implement the National Front policy of repatriating all Coloured Immigrangs, so that our nation never has to experience the horrors and hatreds seen in Miami.**

# WILL ISRAEL SPARK WORLD WAR 3?

**WHY HAS THE Middle East become the flashpoint of a Third World War? Why is the preposterous myth of the "Holocaust" of Six Million Jews daily rammed down the throats of millions in films, books and newspapers? Why has Britain lost the friendship of the mostly anti-communist Arab nations?**

The answer to these questions is simple: **because of the rape and conquest of the land of the Palestinian Arabs by Zionist Jews.**

The Jews of today have no genuine historical claim whatsoever to the land of Palestine, because racially they are not of Biblical Hebrew ancestry at all.

The Jews are a hybrid Armenoid-Oriental race, 90 per cent of whom – the Ashkenazim – come mainly from Poland and Russia.

They are predominantly of Armenoid race, having interbred with a Turkic tribe known as the Khazars. The Khazars, who lived in Russia, were converted to Judaism in the 9th century A.D.

The other branch of the Jews, the tiny minority called Sephardim, who settled in central Europe, are an equally hybridised Armenoid-Oriental-Mediterranean mixture. They are treated as second-class citizens in Israel by the ruling elite of Russian-Polish Ashkenazi "Jews".

## LAND GRAB

It is little wonder, therefore, that the Palestinian Arabs, whose ancestors have lived in what is now Israel for a hundred generations, are waging a violent struggle against an invading gang of mainly Russian-Polish foreigners who have grabbed their land in the 20th century on the basis of the Biblical claims of Hebrews to whom they have no substantial ancestral relationship.

How did it happen that these modern Jews were able to grab Palestinian lands and establish a 'State of Israel'?

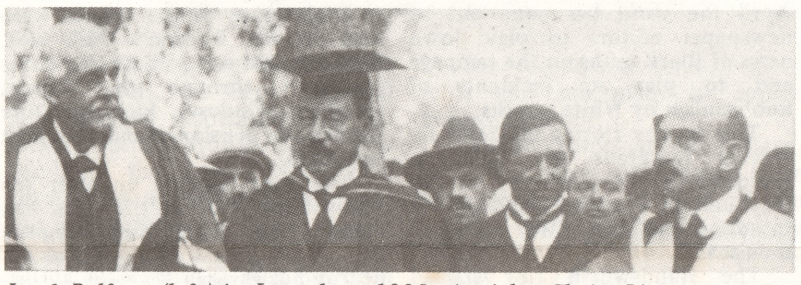
The common belief in the myth of their Biblical ancestry gave birth to the Jews' doctrine of Zionism, a Jewish nationalist movement for the "return" of the Jews to their Biblical "Promised Land".

Political Zionism was founded in the 19th century by Theodore Herzl in his book *The Jewish State*, which was first written as *An Address to the Rothschilds*. In 1897 in Basle he founded the World Zionist Organisation, and wrote in his diary: "This day I have created the Jewish State."

**The Zionist plot to grab a 'Jewish State' really began with the Balfour Declaration, the promise of a homeland in Palestine which World Zionist Organisation leader Chaim Weizmann squeezed out of the British government in exchange for their powerful support in World War I.**

Palestine was also offered to high-powered Zionist circles in America if they would pressurise the American President to enter the war.

The 'Balfour Declaration' was written by Weizmann and submitted to the British War Cabinet and Balfour as Foreign Secretary to sign – after being approved by the Rothschilds. The 'Balfour Declaration' was not Balfour's declaration at all!



*Lord Balfour (left) in Jerusalem, 1925. At right, Chaim Weizmann who wrote 'Balfour's' Declaration*

*"Holocaust" 'survivors' arrive in Palestine, 1944. 'Gas chamber' stories were used to promote illegal Jewish immigration*

In 1918 the Zionists' next move, led by Rabbi Wise, was to get Palestine placed under British Mandate "on behalf of the League of Nations as might be formed," as a preparation for a future Jewish state.

Here we see the Zionists planning the League of Nations and a British Mandate long before either had been officially discussed. Both duly emerged from the Versailles Conference.

Previous British promises to the Arabs which had been made to win Arab support in the war against Turkey were flagrantly broken under Jewish pressure, to the disgust of Lawrence of Arabia.

From then on it was conquest by immigration. Jews flocked to Palestine, and by 1940 were one-third of the population.

Violent conflict broke out as the Arabs realised that a Jewish take-over was in progress, and Britain was forced to restrict Jewish immigration to Palestine during the 1930s. The Jews now turned against Britain.

**Then came Hitler. His anti-Jewish measures during World War II enabled the Zionists to launch the greatest hoax of all time, the "Holocaust" of Six Million Jews, which was nothing but a propaganda ploy to make a further grab for Palestine.**

Zionist organisations started to manufacture stories of Jews being "gassed" as early as 1942. These stories were **always** accompanied by demands that Jews must be admitted to Palestine "to escape the Nazi gas chambers".

In the meantime, while Britain was fighting "to save European Jewry from Hitler", Jewish terrorist groups like the Haganah and the Irgun (led by Menachem Begin) were waging guerilla war against the British.

## ASSASSINATION

After the war, Jewish terrorism such as the hanging of British soldiers Paice and Martin and the assassination of Lord Moyne drove the British out of Palestine. In 1948 the state of Israel was proclaimed.

Swelled by "Holocaust" survivors and armed by the Soviet Union, the Jews then embarked on a war of aggression against the Arabs designed to secure the state of Israel and force out the indigenous Palestinians.

This has continued to the present day. In the war of 1948 Arabs were stampeded out of their homes, farms and businesses by ruthless terrorism, such as the horrific Deir Yaseen massacre. Hundreds of thousands of Palestinian Arabs were made homeless refugees.

In 1967 the Jews embarked on another war of aggression. A planned invasion of Syria was met by Egyptian and Syrian defensive mobilisation. This provided the Jews with the opportunity to hit first with a blitzkrieg air attack.

**The ensuing 'Six Day War' enabled Israel to grab even more Arab territory, incuding the Sinai, Old Jerusalem, the West Bank of Jordan and parts of Syria. A million Palestinians now languish in refugee camps outside their homeland.**

## ASSAULT ON LIBERTY

Recent evidence from CIA files published in James Ennis's book *Assault on the Liberty* proves that the Israelis did, after all, deliberately sink the US radio intelligence ship *Liberty*, killing 34 Americans and wounding 171 others. This was done to prevent the ship providing evidence that Israel was planning to invade Syria.

Jewish aggression and ruthless oppression of the Palestinians has today brought the world to the brink of world war.

Even America, which has slavishly followed a pro-Israel foreign policy

*Administering the occupied territories. Jewish soldiers beat up a Palestinian Arab boy*

at the behest of its Zionist lobby, now counsels moderation because of the threat of war. But the Jews are as intransigent as ever.

**On the West Bank, deportations, expropriation of Arab lands and assassinations of Palestinian leaders continues. The Jews seem quite prepared to plunge the world into war rather than surrender an inch of their stolen land.**

# ANNE FRANK 'DIARY' A PROPAGANDA FAKE

ONE of the main weapons used to squeeze out of gullible Gentiles the maximum amount of sympathy for the Zionist cause – the *Diary of Anne Frank* – has been exposed as a fake.

This phoney 'Diary', supposedly the true story of a young Jewish girl hiding from the Nazis in wartime Amsterdam, has had more emotive influence on the minds of millions than anything else in the sordid catalogue of Zionist "Holocaust" propaganda.

**The definitive unmasking of the fake 'Diary' has now come in a book, *Anne Frank's Diary – A Hoax*, by Swedish researcher and journalist Ditlieb Felderer.**

Felderer shows firstly that the numerous descriptions of the 'Diary's' discovery and publication contradict one another.

Some say the 'Diary' was in the girl's briefcase when the Gestapo arrested the family, others that it was in her father, Otto Frank's, briefcase.

Some say it was hidden in the roof beams of the house. Some sources say the 'Diary' was found on the floor by "friends"; others say Otto Frank found it.

Some say the "originals" are written in "exercise books", while others say they are in three bound volumes, or one bound volume, or on loose sheets of paper, or in "cash books".

According to the legend, Otto Frank "had no thought of publishing it" when he 'found' the 'Diary'. Yet he supposedly copied out the entire work, omitting intimate passages and inserting pseudonyms. Why?

And why did Anne Frank, for whom it was allegedly a "secret diary", conveniently provide a list of these pseudonyms, as well as a title for the work should it ever be published?

The contents of the 'Diary' are full of internal contraditions as well as literary flourishes and salacious entries that are absurd for a 13 year-old girl.

**Above all, the published 'samples' of Anne Frank's handwriting are obviously different, and some of these 'samples' do not even appear in the printed version.**

Felderer says the 'Diary' is a propaganda fake produced by Otto Frank and journalist Anneliese Schutz.

Meyer Levin, a Jewish script-writer who sued Frank for unpaid

*Anne Frank*

royalties for his dramatisation of the 'Diary', says that Frank is a "Stalinist" and that the Dutch Anne Frank Foundation is a communist propaganda centre.

Historians have always doubted the authenticity of the 'Diary'. Dr. Alfred Lilienthal, Jewish author of the expose of Zionist power *The Zionist Connection*, says that "any informed literary inspection would have shown it could not possibly have been the work of a teenager."

Noted British historian David Irving described the 'Diary' as a "notorious forgery", and challenged Otto Frank, the girl's father, to submit the "original manuscript" to forensic examination. Frank refused, claiming the "originals" are in a Swiss bank.

# *BEGIN THE PRIME MINISTER REAPS WHAT BEGIN THE GANGSTER SOWED*

ISRAEL's Prime Minister, Menachem Begin, affected to be "horrified" by the bomb attacks on a number of mayors of Palestinian towns in the Israeli-occupied West Bank territory last month. He called for a report.

The report revealed the attacks had been perpetrated by a fanatical Zionist terrorist group called the Jewish Defence League.

It also revealed that the JDL received active assistance from all sections of the Israeli population, including the armed forces.

**The purpose of the JDL was to terrorise West Bank Arabs into leaving their homes so that the land would be open for settlement by Jewish squatters.**

Prime Minister Begin was said to be "shocked" by the report. But where did the JDL terrorists learn their tactics and strategy?

**From Menachem Begin himself!**

During the 1940s when Palestine was supervised by Britain under the League of Nations Mandate, Begin was boss of a ferocious terrorist gang called the Irgun Zwei Leumi.

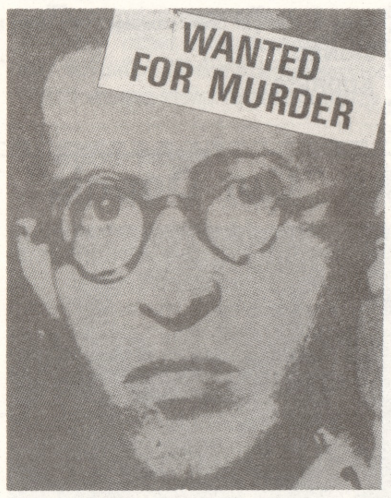
## ATROCITIES

The policy of the Irgun was to perpetrate atrocities against Palestinian villagers so as to make them flee their homeland so that the Zionists could claim to the world that they were settling in an "empty land".

The most notorious of the Irgun's genocidal operations was the massacre of the inhabitants of the village called Deir Yaseen on 10th April 1948.

Under Begin's command, heavily armed Irgun gunmen overwhelmed the lightly defended village. The villagers were rounded up and butchered.

**The village baker and his son were fed alive into their own oven. Later, International Red Cross representatives found the corpses of 150 women and children in a well. Of these 25 were pregnant women whose bellies had been ripped open with bayonets.**



*The official British CID photograph and description of terrorist mass murderer Menachem Begin:*
**"BEGIN, Menachem,** *Polish, b. Poland 1906, 5ft. 9in., medium build, long hooked nose, bad teeth, wears horn-rimmed spectacles. Frequents: Geula Qtr., Jerusalem; Kafr Sava Colony and Tel Mont Colony. Associates: Secretary of Kafr Sava Colony. I.Z.L. leader.* **Photo No. 12."**

Begin's Irgun also perpetrated war crimes against British troops. When the British authorities captured, tried and condemned to death three Irgun murderers, the Irgun kidnapped two British Army sergeants, Mervyn Paice and Clifford Martin.

When the Irgun gangsters were executed, Sgts. Paice and Martin were slow-hanged with wire from eucalyptus trees at Nathanya on the night of 24th July, 1947. The area around their bodies was then mined.

**Begin's Irgun was not content just with murdering British soldiers by gun and bomb. Sadistic torture was very much a part of their scene.**

In December 1946 three sergeants from the 2nd Parachute Brigade were kidnapped. Begin ordered them to be flogged to within an inch of their lives with metal cables.

## NEVER REPENTED

Begin has never repented his past actions. In the introduction to his history of the Irgun, *The Revolt*, published in 1972, Begin asked himself if he would do it all again. He boasted:

*"The answer is definitely 'Yes'."*

At a conference at Tel Aviv on 28th October 1956 he declared:

*"You Israelites, you should never become lenient if you kill your enemies. You shall have no pity on them until we shall have destroyed their so-called Arab culture, on the ruins of which we shall build our own civilisation."*

This is the man who the Israelis have elected as their Prime Minister.

It cannot be any surprise, therefore, that large sections of Israel's population back the new generation of Zionist terrorists in the shape of the Jewish Defence League.

The JDL was formed in New York in the late 1960s by Rabbi Meier Kahane. He emigrated to Israel, and was granted citizenship under the 'Law of the Return' even though he had been responsible for bomb attacks against Arab diplomats.

Israel's government has one of the most extensive intelligence organisations in the world. It is just not credible that the JDL's activities in Israel came as a surprise to Begin.

# LANCS LEADS THE N.F. WITH REGIONAL ACTIVITIES

**"DYNAMIC" is the only word that can be used to describe the way in which National Front branches and groups are advancing in the Lancashire area. This is because they set such great store on Regional activities.**

Much of the credit for this super-activism must go to the newly-elected Regional Organiser, David Riley, and his NW of England Regional Council team, including Regional Agent Alvin Hanson.

Mr. Riley was co-opted to the NF National Directorate earlier this year.

On Sunday 18th May the Regional Council staged a very successful anti-Common Market march in the fishing port of Fleetwood. More than 200 NF members marched through the town led by NF Chairman Andrew Brons.

**The Press were only given news of the march two days beforehand, with the result that only a handful of Red troublemakers were able to mobilise, and were thus unable to cause any trouble.**

The march was also a surprise for the townsfolk and tourists who thronged the harbour area – but it was enthusiastically welcomed by many onlookers, and about 20 fishermen and their families joined in the march, swelling the chant: "Foreign trawlers out! Save British jobs!"

A large crowd gathered to hear the dockside meeting which was Chaired by Mr. Riley. Main speaker was Andrew Brons.

Mr. Brons reviewed the way in which Common Market rules were used to allow foreign fishing vessels to plunder British fishing waters.

He told his audience:

**"Successive Tory and Labour governments have turned a blind eye to the murder of the British fishing industry. Britain must get out of the Common Market at once and impose a 200 mile fishing limit for the exclusive use of the British fishing fleet!"**

Mr. Brons then called on one of the local trawlermen who had vociferously supported his speech to come to the platform and speak his mind. This the fisherman did with gusto.

He pointed out men in the crowd – fishermen and dockers – who had recently lost their jobs. He pointed out a man with a master's certificate who was laid off. He said that there was only one thing for these men to do:

"Join the National Front and form our own branch of the NF here in Fleetwood. No one else seems ready to fight for us!"

**This is the kind of activity that other NF Regional Councils should organise on a regular basis so that the NF can build a real base of support among the people it exists to serve.**

# New Directorate Faces

FOUR longstanding and talented NF Activists have been co-opted to serve on the NF National Directorate. They are: Mrs. Peggy Caine, Mr. Joe Pearce, Mr. R. Paul Matthews and Miss Carol Neil.

**Mrs. Peggy Caine** is Secretary of the successful Havering Branch in Essex. She and her husband Stephen have devoted all their spare time during the past ten years to building up their Branch.

Mrs. Caine stood as the NF candidate for Romford at the last General Election and many members will remember the eloquence and sincerity of her speech at the Regional election rally at East Ham Town Hall.

**Joe Pearce** will be well known to most NF members – especially the youngsters – as he is Editor of the YNF magazine *Bulldog*. Now Publicity Officer for the YNF National Secretariat, Joe was from 1977 until May of this year YNF National Organiser.

Though still only 19 years of age, Joe has five years of experience as an NF Activist, organiser, journalist and speaker behind him. Joe will be able to provide an essential liaison between the youth wing of the party and its Directorate.

**Paul Matthews** joined the NF while he was still living in Cardiff six years ago. He served for a year as a Committee member of Cardiff Branch until he got his Law degree, when he moved with his wife to Leicester and joined the NF solicitors, Gegan & Co.

1980 has been a difficult year for the NF in the East Midlands, but Mr. Matthews rose to the occasion by taking on the Chairmanship of Nottingham Branch in addition to being a tower of strength in Leicester.

**Miss Carole Neil** has been a member of Nottingham Branch for five years, and has held various posts on the Branch Committee for more than two years, including that of Secretary. She has recently been appointed East Midlands Regional Agent.

Miss Neil's especial job on the Directorate will be to assist in the organisation of national and regional training seminars.

# JOE PEARCE FACES RACE ACT CHARGE

**OFFICERS of Scotland Yard's Community Relations Department called at the Dagenham home of Joe Pearce, Editor of the YNF paper *Bulldog*, last month and warned him that he faces two Race Relations Act charges.**

Joe's method of dealing with Police officers who have allowed themselves to be seconded into the Race Relations Board's machinery of repression was entirely correct.

**He refused to allow them beyond the door, and he refused to answer any of their questions.**

The officers told Joe that prosecutions were contemplated against him in respect of issues 15 and 16 of *Bulldog*.

These issues contained factual reporting about ugly events in Britain's multi-racial society, and forthright statements of opinion.

The Editorial in issue 15, headed "Stuff the Race Act", declared: "If truth is illegal, we will be proud to have broken the law."

Copies were posted to leading MPs and a special copy was sent for the personal attention of David Lane, Chairman of the Commission for Racial Equality.

In the Editorial published in issue 16, Joe declared: "Whether Lane prosecutes us or not, one thing is absolutely certain: the Young National Front is proud to be racialist and we are not afraid to say it, illegal or not."

**If the decision is taken to prosecute Joe – as seems likely – plans are in hand to provide YNF members and Community Relations Squad officers with a most exciting sequence of events!**

# *N.F. TO PUBLISH THE EVIDENCE WHICH M.P.'s TRIED TO SUPPRESS*

**EVIDENCE from the National Front on public order problems and proposals to amend the Public Order, Representation of the People and Race Realtions Acts will be available in booklet form early in July.**

The evidence, compiled on behalf of the NF National Directorate by NF National Activities Organiser Martin Webster, was accepted by the House of Commons Home Affairs Committee on 14th April.

The contents of the submission must have ruffled a lot of Establishment feathers, because the Committee announced that they would not be inviting the NF to submit oral evidence along with other organisations that had submitted written evidence.

The Committee also said that they would not be publishing the NF's evidence in a separate volume in advance of its final report, in the way that they had done with other organisations' evidence. They claimed that only organisations invited to give oral evidence could have their evidence published.

**However, the written evidence of the Board of Deputies of British Jews was published even though its representatives did not submit oral evidence.**

The NF's submission 'takes apart' proposals to change the law in ways clearly intended to inhibit the NF's ability to function, and introduces its own proposals for law reforms.

It also contains detailed reports about what **actually** happened on historic occasions such as 'The Battle of Red Lion Square', the 'Battle of Lewisham' and the 'Battle of Southall' and exposes the bogey-man mythology about the NF created by mass media lies.

**In short, the booklet contains a wealth of detailed factual information about the NF, its beliefs, its history and the activities of its opponents which every NF member – and certainly every NF official should have on file.**

When the publication of the booklet – *NF Evidence on Public Order* – was first announced in an NF *Organisers' Bulletin* it was said that because the 25,000 word document was of such a specialised nature only 500 copies would be printed. But the flood of orders for copies has been so great that the print order has been doubled to meet the demand.

By the time this issue of *NF News* appears there may only be about 300 copies still available – so if you want copies, rush your order in now!

# RACE RIOTS HUSHED UP

**EVER since the Bristol riot on 2nd April the word has gone out to newspaper editors to play down news of Black mobs on the rampage and to play up incidents of hooliganism by White youths.**

This is why rioting incidents involving hundreds of Blacks in Handsworth (Birmingham) on 5th May and in Finsbury Park (North London) on 26th May received such scant coverage.

The Handsworth riot started when two Police constables tried to question a Black burglary suspect. Within minutes they were surrounded by a mob who kicked them unconscious.

The mob then turned on Police reinforcements who tried to get the unconscious officers to safety. When the crowd of Blacks numbered in excess of 200 they attempted to storm the Thornhill Road Police station.

Only the arrival of massive Police reinforcements prevented the station from being overrun.

**Even more savage scenes were seen at the Finsbury Park riot. Between 200 and 400 Black youths rampaged through the streets, smashing windows, kicking White women and pensioners and snatching handbags.**

The gang formed up after the Whitsuntide Fair in the park had closed. They began their rampage by attacking cars and buses at the nearby bus garage.

Then they turned their attention on the crowd of women and pensioners leaving a bingo hall. Old folk were knocked to the ground, kicked and robbed. A woman in her 70s was badly hurt.

Massive Police reinforcements sealed off the park and pedestrians were told: "You can't go through – there's a race war going on down there!"

**The Notting Hill 'Carnival' looks like being a fearsome occasion.**

**ULSTER MEMBER NEEDS ACCOMMODATION (Scotland)**

Ulster NF member (21, graduate engineer) taking up appointment in Edinburgh seeks accommodation in Edinburgh/Glasgow area from August onwards. Willing to share with others (not students unless NF members). Replies to Box 93X, c/o NF News.

TEN years of active service and loyalty to the NF by Mr. Dennis Burgess, Treasurer of Lambeth NF Branch, were marked by a special presentation at the Branch's May meeting. Branch members subscribed to buy Mr. Burgess an engraved tray, which was presented by the Branch Secretary.
